

The Muzzleloader You Can Trust

Ultimate Muzzleloaders are unquestionably the most dependable, powerful and accurate muzzleloading rifles in the industry. Each rifle is the result of extensive testing and design from qualified hunters in actual hunting situations. If you don't trust your muzzleloader, you shouldn't be hunting...we take the worry out of muzzleloading and absolutely guarantee Ultimate Muzzleloaders are 100% reliable. Put your trust in our .50 caliber, and enjoy your valuable time outdoors.

Patented Advanced Priming System

Our Ultimate Muzzleloaders rack a .45 magnum brass case over a custom nipple, much like a conventional bolt-action rifle uses a shell. This brass primer is equipped with a magnum rifle primer, which burns ten times hotter than a 209 primer. The result is what we call "controlled detonation", and it is the hottest, most reliable, most advanced, technologically superior ignition system in the muzzleloading industry.

No Brag, Just Fact

- Completely burns 4 Pyrodex pellets
- Documented kills at over 500 yards
